Step One:
- Make sure the transformer mode is selected.
- Show the mode switch to transformer mode.

Step Two:
- Find a grounded electrical outlet.
- Connect the power cord to the outlet.
- Set the transformer's input plug to the power outlet.

Step Three:
- Hold the transformer's handle to the top.
- Turn the power switch to ON.

Step Four:
- The red indicator shows the power is on.
- When using the transformer, step on the power supply to ensure it is grounded.

Step Five:
- The transformer operates normally.

Using the Bilirubin Phototherapy System:
- Follow the instructions on the system to ensure proper use.
- After use, clean the system according to the manufacturer's guidelines.
- Dispose of any used supplies according to local regulations.
